## Ramkumar R, Full Stack Developer

I love building things that are both challenging and meaningful—from modern web apps to efficient APIs and creative technical tools. I'm passionate about solving complex problems with clean, scalable code and constantly exploring new technologies. Whether it's developing from scratch or optimizing existing systems, I bring energy, curiosity, and a hands-on mindset to every project. Skilled in JavaScript, Python, HTML/CSS, and always ready to learn more and build better.
